1. NATURE AND CONTINUANCE OF OPERATIONS

Stuhini Exploration Ltd. (the “Company”), was incorporated under the *Business Corporations Act* (British Columbia) on July 7, 2017. The Company is focused on acquisition, exploration, and development of mineral properties in British Columbia. On May 21, 2019, the Company’s common shares were listed on the TSX Venture Exchange (“TSX-V or the “Exchange”) under the symbol “STU”.

The Company’s head office and registered office address is 1245 W Broadway, Unit 105, Vancouver, BC V6H 1G7.

These interim financial statements have been prepared with the going concern assumption, which assumes that the Company will continue in operation for the foreseeable future and, accordingly, will be able to realize its assets and discharge its liabilities in the normal course of operations. The Company’s ability to realize its assets and discharge its liabilities is dependent upon the Company obtaining the necessary financing and ultimately upon its ability to achieve profitable operations. These material uncertainties may cast significant doubt on the Company’s ability to continue as a going concern.

Failure to arrange adequate financing on acceptable terms and/or achieve profitability may have an adverse effect on the financial position, results of operations, cash flows and prospects of the Company. These financial statements do not give effect to adjustments to assets or liabilities that would be necessary should the Company be unable to continue as a going-concern. These adjustments could be material.

2. STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION

a) Statement of Compliance and Basis of Presentation

These unaudited condensed interim financial statements have been prepared in accordance with accounting policies consistent with International Financial Reporting Standards (“IFRS”) IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). The unaudited condensed interim financial statements, prepared in conformity with accounting policies consistent with IAS 34, follow the same accounting principles and methods of application as the most recent audited annual financial statements. Since the unaudited condensed interim financial statements do not include all disclosures required by the International Financial Reporting Standards (“IFRS”) for annual financial statements, they should be read in conjunction with the Company’s audited annual financial statements for the reporting period ended February 28, 2019.

b) Basis of Measurement and Use of Estimates

The unaudited condensed financial statements of the Company have been prepared on an accrual basis and are based on historical costs except for cash flow information. All amounts are expressed in Canadian dollars, the Company’s functional and reporting currency.

The preparation of financial statements in compliance with IFRS requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

c) Accounting standards issued but not yet effective

A number of new accounting standards, amendments to standards, and interpretations have been issued but not yet effective up to the date of issuance of the Company’s unaudited condensed interim financial statements. The Company intends to adopt the standards when they become effective. The Company has not yet determined the impact of these standards on its financial statements but does not anticipate that the impact will be significant.

3. EXPLORATION AND EVALUATION ASSETS

Metla Property

On July 7, 2017, the Company entered into a purchase and sale agreement (the "Agreement") with Barry Arthur Hanslit, a co-founder of the Company, whereby the Company issued 883,333 common shares, with a fair value of \$53,000, in exchange for title to the Metla Creek Claims (the "Metla Property"). The Metla Property consists of seven contiguous mineral claims, located south of the town of Atlin, BC.

The Company incurred the following acquisition and deferred exploration costs in association with the Metla Property:

Ruby Creek Property

On July 30, 2019, the Company entered into an option agreement (the "Ruby Creek Agreement") with Global Drilling Solutions Inc. ("Global Drilling"), a private BC Company wholly owned by Barry Hanslit, who at the time of the signing of the Ruby Creek Agreement was an insider of the Company by virtue of his holding of more than 10% of the Company's Common Stock, whereby the Company was granted a right to acquire a 100% interest in Global Drilling's Ruby Creek Property (the "Ruby Creek Property"), located in north western British Columbia, Canada (the "Option"). The Ruby Creek Property is 26,990 hectares in size, is road accessible and is located 20 kilometres from the nearby town of Atlin. The Option is conditional on approval by the disinterested shareholders of Stuhini Exploration Ltd. and by the Exchange (the final approval by both disinterested shareholders and the Exchange being the "Approval Date").

If disinterested shareholder approval and the Exchange approval are received, the Company will have an option to earn a 100% interest in the Ruby Creek Property by issuing up to 7,300,000 common shares and making cash payments of up to \$1,060,000 over a four-year term to exercise the Option. The only committed payment is the issuance of 800,000 shares at the Approval Date. The balance of the share issuances and the cash payments are at the Company's election should it wish to maintain the Option. Upon exercise of the Option, Global Drilling would be entitled to a 1% net smelter returns royalty on the Ruby Creek Property. In the event that the disinterested shareholder approval and the Exchange approval are not received within 120 days of the date of execution of the Ruby Creek Agreement, Global Drilling will be entitled to terminate the Ruby Creek Agreement, in which event the Company will be required to pay Global Drilling a fee of \$60,000.

Under the terms of the Plan, the Company can issue a maximum of 10% of the issued and outstanding common shares at the time of the grant. On April 15, 2018, the Company granted options to acquire up to 490,000 common shares to its officers and consultants. The options were exercisable for a period expiring on July 15, 2019, at \$0.10 per share. The grant of options was contingent upon the successful closing of the IPO of a total of at least 4,000,000 common shares. On June 14, 2019, the Company received approval from the TSX-V to finalize these options; the Company considered the options to acquire up to 380,000 shares of the Company at \$0.20 per share to be granted; options to acquire up to 20,000 shares were forfeited in September of 2018. These options expire on May 21, 2021.
